

RAPID CORTEX

WHAT CHANGES WHEN RAPID
CORTEX ENTERS THE 9-1-1 CENTER?

“Intelligence at the speed of response”

911 TODAY

WHEN CRISIS MEETS INTELLIGENCE

240 million 911 calls are made every year in the United States alone. Dispatchers process language barriers, incomplete addresses, and simultaneous radio traffic; all within seconds. The system was not designed for this volume or this pressure.

THE TECHNOLOGY HAS NOT KEPT UP

DISPATCHER REALITY

YOU ENJOY THE CALL

WE REDUCE THE LOAD.

Rapid Cortex doesn't replace dispatchers.
It gives them AI-powered intelligence
so they can focus on what humans do best.

WHO IT'S FOR

WE DON'T ASK AGENCIES TO CHANGE

WE IMPROVE WHAT YOU HAVE

Rapid Cortex enhances your existing CAD system, telephony, and workflows — without replacing anything your team already relies on.

DISPATCHER

Transcription, translation, AI triage summary, caller media request

SUPERVISOR

Live call monitoring, QA scorecards, coaching notes, performance trends

COMMAND STAFF

War rooms, incident timelines, runbooks, post-incident review

AGENCY IT / ADMIN

RBAC, tenant isolation, audit logs, integrations, API key management

SECURITY &
COMPLIANCE

MISSION-CRITICAL SECURITY. BY DESIGN.

Public safety data is among the most sensitive in existence.
Rapid Cortex is built with CJIS-aware principles from day one.

CJIS-Aware Design

Architecture and access controls aligned to CJIS Security Policy

Tenant Isolation

Zero cross-agency data exposure — enforced at every API route

Full Audit Trail

Every user action logged with agency, user, timestamp, and action

GLOBAL DELIVERY. LOCAL IMPACT.

Rapid Cortex deploys on AWS with multi-region capability, 99.9% SLA, and a rollback-tested deployment pipeline. Every agency gets their own isolated environment — no shared data, no shared risk.
