

NEXCORT iQ · INTERNAL PRODUCT / SALES

Product SKU Matrix v1.0

Companion to the Role Access Matrix. Maps **offerable SKUs and capabilities** to product verticals and the primary roles that buy or operate them. **No list prices** — sales contractors use this with the feature-only Pricing Catalog. Dollar amounts require Sales Director approval.

Legend

Y = available for that vertical · **-** = not for that vertical · **F** = free / complimentary offering · **Never** = never complimentary on a quote · **Intern** = internal NexCort only (not sold to agencies). Columns: **911**=NC 911/PSAP · **Camp**=Campus · **Ven**=Venue · **Hosp**=Hospital · **Tran**=Transit · **CA**=Call Assist product surface. Vertical roles never collapse to PSAP dispatcher. CAD write-back is fail-closed († signed addendum).

RC Internal	rcsuperadmin · radmin · rcitadmin	/rc-admin/...	Tenant/billing/flags — not for contractors

Sales rules baked into this matrix

- Never-free: live transcription, AI triage, CAD write-back, CAD mesh, NexIQ Vision™.
- Free wedges: Community Connect (1 zone), Ops Intelligence Report (limited), Wellness (accredited PSAPs).
- Pilot default: CAD read-only or mock — write-back only with signed addendum.
- PSAP roles do not manage campus/venue/transit QR & NFC (see QR/NFC guides).
- Public price language: tailored deployment · custom quote · contact sales.
