Training and go-live

- 30–45 minute dispatcher (or vertical operator) walkthrough on the live console, not a feature list.
- Supervisor / admin walkthrough: QA, users, retention, what is out of scope.
- One tabletop scenario using the agency's actual call/incident types.
- Collect feedback after week one; send weekly pilot report to agency stakeholders.
- Sales contractors may attend discovery but do not receive tenant admin, billing, or list prices.
