

NEXCORT IQ

Intelligence at the Speed of Response

Product Capability Overview | Investor Edition

Role assignments aligned to Role Access Matrix v2.0 · Product verticals & 2026 shipped modules · Investor Edition

Platform Overview

NexCort iQ is a next-generation public safety intelligence and decision-support platform built for 911 dispatch centers, emergency communications centers, law enforcement, fire rescue, EMS, and emergency management agencies. The platform enhances operations without replacing CAD systems, telephony systems, dispatchers, or responders.

The catalog below covers 99 cataloged features across 12 capability domains, plus 36 additional product modules (including NexIQ Vision™, Call Assist, iQ Reporting, Command Intelligence, NexiQ Vault, Response Continuity, CAD mesh, and product-vertical consoles). Features are gated by role, plan tier (Essential through Enterprise), and environment feature flags.

Roles in NexCort iQ

Role	Typical Use
Dispatcher	Live call-taking, intake, triage, media, CAD submit
Supervisor	Floor oversight, QA, coaching, command/war rooms, CAD approve
Agency Admin	Users, policy, integrations, compliance, full incident control
Agency IT	Integrations, MFA, settings, incident management, CAD submit/approve
Analyst	Trends, exports, read-only command/PIR surfaces
Auditor	Read-only audit, transcripts, compliance review
Hospital Admin / Staff / Coordinator	Hospital capacity portal, pre-alert ack, MCI routing (separate from PSAP console)
NC Admin	Multi-tenant platform ops (no revenue totals); Adobe Sign; developer portal
NC IT Admin	Cross-tenant user/integration support; emergency account deactivation
NC Super Admin	Full platform (feature flags, revenue, transcript delete, ungranted permissions, time-boxed permission grants)
Campus Admin / Supervisor / Security / Dispatch	Campus safety console — tips, QR/NFC, Clery workflows (not PSAP CAD)
Venue Admin / Supervisor / Security / Operator / Guest Services	Venue ops & guest-services console (orange-branded; Guest Services is not 911 dispatch)
Transit Admin / Supervisor / Security / Operator	Transit operations console — fleet/route incident awareness
Call Assist Admin / Supervisor / Operator	Non-emergency AI call management only — never lands on 911 dispatcher workspace
Sales Contractor	Internal sales portal pipeline (platform role; not an agency product SKU)

Advantage = primary operator benefit. **Description** = what the feature does. Features are also gated by plan tier (Essential → Enterprise) and `NEXT_PUBLIC_ENABLE_*` flags.

Intelligence at the Speed of Response

Feature Catalog (99 Features)

Core Platform

#	Feature	Primary Role(s)	Advantage	Description
1	Web application access	All authenticated roles	Staff sign in via web app from supported browsers without installing a desktop build.	Browser access to dispatcher, supervisor, and admin surfaces.
2	Desktop application access	All authenticated roles	Some teams prefer a native desktop shell for focus, shortcuts, or kiosk-style deployment.	Native desktop entry points for operator workflows.
3	Role-based access control	All authenticated roles	Each person only sees what their role allows, reducing accidental exposure.	Role-scoped permissions for dispatcher, supervisor, admin, and platform roles.
4	Agency admin console	Agency Admin, Agency IT; NC IT Admin (platform)	Admins support day-to-day changes without code changes.	Administrative controls for users, settings, and integrations.
5	Core reporting	Agency Admin, Supervisor, Dispatcher, Analyst, Auditor; NC Admin, NC IT Admin (platform)	Leaders see workload, throughput, and basic trends without custom BI first.	Baseline operational reporting and trend views.
6	Audit logs	Agency Admin, Agency IT, Supervisor, Auditor; NC Admin, NC IT Admin (platform)	Admins and auditors trace who changed settings or sensitive workflows after an event.	Audit trail for sensitive actions and operational controls.

Call Intake & Dispatch Intelligence

#	Feature	Primary Role(s)	Advantage	Description
7	AI-assisted intake	Dispatcher, Supervisor; Agency Admin oversight	Prompts and structure during intake; human remains responsible for final decisions.	Assistant support during call intake.
8	Live transcription	Dispatcher, Supervisor	Read along and search recent speech to confirm details in noisy or complex calls.	Live transcription controls and transcript capture.
9	Call triage workflows	Dispatcher, Supervisor	Consistent triage order so highest-risk situations get attention when demands compete.	Structured triage and prioritization workflows.
10	Call session history	Agency Admin, Supervisor,	Reopen past sessions to verify details, train, or support callbacks.	Review previously handled sessions via transcript and session records.

NEXCORT IQ

Intelligence at the Speed of Response

#	Feature	Primary Role(s)	Advantage	Description
		Dispatcher, Analyst, Auditor		
11	Active incident view	Agency Admin, Agency IT, Supervisor, Dispatcher, Analyst, Auditor	Shared view of in-progress work; does not replace CAD as system of record.	Current active incident list and details.
12	Dispatcher console	Dispatcher, Supervisor	Primary screen for intake, media, and assistive context during live operations.	Primary operator console for real-time tasks.
13	LiveLocation SMS secure link	Dispatcher, Supervisor	Consent-first SMS link; GPS context appears when callers opt in and policy allows.	Time-limited SMS link for caller-approved location sharing.
14	Surge View related-call clustering	Dispatcher, Supervisor	Group related calls during weather, roadway, or coordinated events instead of manual duplicate tracking.	Heuristic clustering by proximity, time, language, call type, location.
15	Channel / talk group monitoring	Dispatcher, Supervisor	Radio/talk-group context next to workflow when integration supports it.	Monitoring for channels/talk groups with operator context.
16	Non-emergency intake queue	Dispatcher, Supervisor	Alternate queues without blocking life-safety handling when processes are defined.	Queueing and handling of non-emergency tasks.
17	Backlog and SLA tracking	Dispatcher, Supervisor (operational view); Agency Admin (SLA threshold configuration)	Supervisors see overdue items and rebalance work during surge; Agency Admin sets SLA thresholds.	SLA and backlog metrics for intake queues; threshold configuration for Agency Admin.
18	Incident Context Cards	Dispatcher, Supervisor	Prior-call and officer-safety context on the live call without leaving the console.	Read-only context cards with CAD/Vault source labels. Included all plans. No JMS/criminal history.

Language & Communication

#	Feature	Primary Role(s)	Advantage	Description
19	Multilingual intake	Dispatcher, Supervisor	Work with more callers in their language, with human verification per policy.	Multilingual call intake support.
20	Live translation	Dispatcher, Supervisor	Understand non-English speech or chat faster, with agency accuracy rules.	Real-time language translation in workflows.
21	Text-to-voice support	Dispatcher, Supervisor	Consistent voice instructions where policy allows.	Convert text prompts to voice where enabled.

NEXCORT IQ

Intelligence at the Speed of Response

#	Feature	Primary Role(s)	Advantage	Description
22	Language auto-detection	Dispatcher, Supervisor	Less manual language selection in multilingual flows.	Automatic language detection during intake.
23	Text-based multilingual workflows	Dispatcher, Supervisor	Supports discreet text/SMS paths and split voice/text incidents.	Text-first multilingual workflows for silent/text channels.

Media & Evidence

#	Feature	Primary Role(s)	Advantage	Description
24	Caller photo upload	Dispatcher, Supervisor (use); Agency Admin, Auditor (governance)	Still images clarify location or hazard without implying CAD unit positions.	Photo upload from caller flows.
25	Caller video upload	Dispatcher, Supervisor (use); governance roles	Richer context for supervisors and training when policy allows clips.	Video upload and retrieval for incidents.
26	Live caller media streaming	Dispatcher, Supervisor (use); governance roles	Narrow live view with operational discipline; not a CAD telematics replacement.	Live streaming from caller devices into dispatcher views.
27	Media audit trail	Agency Admin, Auditor (governance)	Defensible record for investigations and public records on sensitive media.	Audit records for media access and updates.
28	Retention controls	Agency Admin	Platform follows hold/purge rules instead of ad hoc floor deletions.	Configurable retention for media/transcript artifacts (system.retention).

Supervisor & QA

#	Feature	Primary Role(s)	Advantage	Description
29	QA review tools	Supervisor (create/review); Dispatcher (acknowledge); Analyst, Agency Admin (view)	Score, annotate, and track follow-ups in one place.	Supervisor QA review workflows.
30	Scorecards	Agency Admin, Supervisor (create); Dispatcher (acknowledge); Analyst (view)	Track improvement areas without ad hoc spreadsheets.	Scorecard creation and review.
31	Coaching notes	Agency Admin, Supervisor (create);	Document expectations and follow-up after QA.	Supervisor coaching notes and follow-up tracking.

NEXCORT IQ

Intelligence at the Speed of Response

#	Feature	Primary Role(s)	Advantage	Description
		Supervisor, Dispatcher (view)		
32	Team performance dashboards	Supervisor, Agency Admin	See team strain and coaching themes across a group.	Performance dashboard for teams and dispatchers.
33	Call quality trends	Agency Admin, Supervisor, Analyst	Shows whether coaching moves the needle over months.	Longitudinal quality and trend analytics (qa.trends).
34	iQ Reporting	Supervisor, Agency Admin only — never Dispatcher	Daily vertical analytics for leaders without exposing reporting to front-line consoles.	Per-agency daily metrics for 911/campus/venue/transit/hospital. Supervisor/admin RBAC enforced server-side.
35	Command Intelligence	Supervisor, Agency Admin, command staff	Comms-ops intelligence (volume, containment, translation, repeat locations) separate from war rooms.	Professional+ communications intelligence module — distinct from Incident Command Dashboard.

Incident Command & Collaboration

#	Feature	Primary Role(s)	Advantage	Description
36	Major incident management	Supervisor, Agency Admin, Agency IT; Dispatcher (limited)	Track multi-jurisdiction or long events without implying CAD control from RC.	Large-incident management controls and context. Agency IT has full incident CRUD alongside Agency Admin.
37	Command dashboard	Supervisor, Agency Admin	Decision-support picture; local CAD stays authoritative unless write-back approved.	Unified command-level dashboard view.
38	War rooms	Agency Admin, Supervisor (create); Agency Admin, Supervisor, Dispatcher (join)	Digital coordination around tasks and checklists.	Collaborative incident war-room workflows.
39	Runbooks / playbooks	Supervisor, Agency Admin	Approved steps during stress; content must stay current.	Operational runbooks and playbooks for incidents.
40	Incident timeline reconstruction	Agency Admin, Agency IT, Supervisor, Dispatcher (view); Analyst, Auditor (view)	Rebuild sequences for AAR, training, and oversight.	Timeline reconstruction across incident events (command.timeline_view).
41	Post-incident reviews	Agency Admin, Supervisor (create); Analyst, Auditor (view)	Structured reviews make improvements actionable.	Post-incident review and lessons workflow.
42	Stakeholder status pages	Supervisor, Agency Admin	Controlled external messaging without over-sharing tactical detail.	Status pages for stakeholders and leadership.

NEXCORT IQ

Intelligence at the Speed of Response

Reliability & Technical Operations

#	Feature	Primary Role(s)	Advantage	Description
43	Monitoring integrations	Agency Admin, Agency IT; NC Admin, NC IT Admin (platform)	See dependent services healthy before peak volume.	Monitoring integrations and health surfaces (integrations.view).
44	Alert correlation	Agency Admin, Agency IT	Focus on root causes instead of duplicate pages.	Correlate alerts across operational signals.
45	Escalation engine	Agency Admin, Agency IT	Ordered IT/ops notification when platform breaches thresholds.	Escalation workflows for active incidents.
46	On-call routing	Agency Admin, Agency IT	Alerts reach designated people through approved channels.	On-call routing and handoff controls.
47	SLO dashboards	Agency Admin, Agency IT	Spot latency/error budget trends before users flood the help desk.	SLO dashboards for service reliability.
48	Reliability reporting	Agency Admin, Agency IT	Summarize what broke, duration, and response after incidents.	Reliability reporting and review packs.

Deployment & Support

#	Feature	Primary Role(s)	Advantage	Description
49	Standard onboarding	Agency Admin; NC Admin, NC IT Admin	Clear week-one expectations, training, and support channels.	Baseline onboarding and rollout support.
50	Premium onboarding	Agency Admin; NC Admin, NC IT Admin	Extra vendor presence for tough cutovers and complex integrations.	Expanded onboarding and hypercare.
51	Integration assistance	Agency Admin; NC Admin, NC IT Admin	Connect to existing systems with realistic discovery scope.	Implementation guidance for integrations.
52	Priority support	Agency Admin; NC Admin, NC IT Admin	Trained responder with clearer SLAs when product is degraded.	Priority support workflow and response SLA.
53	Dedicated rollout planning	Agency Admin; NC Admin, NC IT Admin	Named plan coordinates training, UAT, and go-live.	Structured rollout planning by program stage.
54	Multi-site deployment support	Agency Admin; NC Admin, NC IT Admin	Avoid divergent configs across sites.	Multi-site and regional deployment support.
55	Custom security/compliance review	Agency Admin; NC Admin, NC IT Admin	Maps controls to expectations without claiming uncertified compliance.	CJIS-aligned security/compliance review package.

NEXCORT IQ

Intelligence at the Speed of Response

CAD Integration

#	Feature	Primary Role(s)	Advantage	Description
56	CAD disabled mode	Agency Admin, Agency IT (config); Dispatcher, Supervisor (ops)	Intake and AI assist with no CAD read/write claims — safest pilot default.	NexCort iQ without direct CAD integration.
57	CAD discovery workshop	Agency Admin, Agency IT; NC Admin, NC IT Admin	Align PSAP, IT, and vendor on what is possible before wiring.	Discovery and mapping workshop with vendor/agency contacts.
58	CAD read-only integration	Agency Admin, Agency IT (config); Dispatcher, Supervisor, Agency IT (ops)	Structured CAD snapshot in RC; primary dispatch stays in vendor CAD.	Read-only CAD incident metadata integration.
59	CAD assisted write-back — submit	Dispatcher, Supervisor, Agency IT	Human initiates update; requires supervisor or Agency IT approval before reaching CAD.	Dispatcher or Agency IT-approved write-back submission to CAD (cad.submit).
60	CAD assisted write-back — approve/reject	Supervisor, Agency IT	Human-reviewed updates only, with attestation and audit. Approval gated to Supervisor and Agency IT.	Approve or reject pending CAD write-back submissions (cad.approve / cad.reject).
61	CAD writeback queue view	Agency Admin, Agency IT, Supervisor, Dispatcher	Full visibility into pending and completed write-back submissions without requiring approval rights.	Read-only view of the CAD writeback queue (cad.queue_view).
62	CAD automated write-back	Agency Admin, Agency IT (config, rare)	Automation only with explicit agency/vendor acceptance.	Automated CAD write-back without per-action submission.
63	CAD vendor adapter	Agency Admin, Agency IT	Staff see CAD fields when configured; adapter is invisible to floor.	Vendor-specific adapter behind shared CAD interface.
64	CAD delivery latency shaping	Agency Admin, Agency IT (config)	Tighter refresh when vendor supports push/streaming.	Ingestion pacing (polling, webhooks, streaming) per deployment.
65	Map unit overlays (CAD/AVL)	Dispatcher, Supervisor	Unit markers only when feeds are complete and validated.	Apparatus/unit symbology when CAD/AVL positions are forwarded.
66	Operational Mapbox workspaces	Dispatcher, Supervisor	Dark-theme maps with caller pins and future CAD overlays.	Embedded Mapbox views aligned with command UI.
67	CAD field mapping	Agency Admin, Agency IT	Reduces wrong data landing in CAD fields under stress.	Field-level read/write mapping governance.
68	CAD audit logging	Agency Admin, Agency IT, Supervisor, Analyst, Auditor	Defensible record for CAD-related investigations.	Audit log entries for CAD reads and write attempts (cad.audit_view / audit.cad_writeback).

NEXCORT IQ

Intelligence at the Speed of Response

#	Feature	Primary Role(s)	Advantage	Description
69	CAD rollback plan	Agency Admin, Agency IT	Known manual steps if a connector misfires.	Operational rollback procedure for CAD connector incidents.
70	Multi-CAD Connector / CAD-to-CAD mesh	Agency Admin, Agency IT	Unified multi-CAD awareness and regional mutual-aid mesh — never free.	Command+ connector. Write-back remains fail-closed and human-reviewed. Additional vendors scoped OT.
71	Map Unit Overlays (AVL)	Dispatcher, Supervisor	See unit position, status, and ETA on operational maps from CAD/AVL feeds.	Command+ AVL overlays. Soft-fails when unit feed unavailable.

AI & Call Intelligence

#	Feature	Primary Role(s)	Advantage	Description
72	Primary AI model	Dispatcher, Supervisor, Agency IT (request); Agency Admin, Agency IT, Supervisor, Analyst (view/governance)	First-pass model responses approved for agency scope.	Primary model path for analysis and recommendations (analysis.request / analysis.view).
73	Secondary AI model review	Dispatcher, Supervisor, Agency IT (request); Agency Admin, Agency IT, Supervisor, Analyst (view/governance)	Second look where policy demands redundancy.	Secondary model for fallback/review workflows.
74	Tertiary AI model fallback	Dispatcher, Supervisor, Agency IT (request); Agency Admin, Agency IT, Supervisor, Analyst (view/governance)	Partial assistance during vendor AI outages.	Tertiary fallback for degraded AI availability.
75	AI confidence scoring	Dispatcher, Supervisor	Pause or escalate when the model is unsure.	Confidence metadata for AI-generated outputs.
76	AI incident summarization	Dispatcher, Supervisor	Draft narrative for handoffs/AAR with human sign-off for external use.	AI-generated incident summarization for review.
77	AI dispatcher recommendation engine	Dispatcher, Supervisor	Structured thinking; staff remain accountable to protocol and CAD.	Recommendation engine for dispatcher decisions.
78	Override AI output (manual entry)	Dispatcher, Supervisor, Agency IT	Dispatcher or Agency IT can manually override model output when the recommendation does not match operational reality.	Manual override of AI-generated analysis with audit trail (analysis.override).
79	Custom agency AI prompts	Agency Admin	Match county language/SOP without per-tweak code changes.	Agency-scoped prompt customization and governance.

NEXCORT IQ

Intelligence at the Speed of Response

#	Feature	Primary Role(s)	Advantage	Description
80	Custom emergency workflow tuning	Agency Admin	Align assistant with priority schemes without replacing CAD/radio.	Agency-specific emergency workflow tuning.
81	AI QA scoring	Supervisor	Save time on routine scoring; supervisor owns final grades.	AI-assisted QA scoring pipeline.
82	AI post-incident review	Supervisor, Analyst	First pass of AAR themes with human editing.	AI support for post-incident review workflows.
83	Export AI analysis	Agency Admin, Agency IT, Supervisor, Analyst	Carry AI-generated summaries and analysis into external reporting pipelines.	Export of analysis outputs (analysis.export).

Security & Compliance

#	Feature	Primary Role(s)	Advantage	Description
84	Secrets Manager integration	Agency Admin, Agency IT; NC IT Admin	Credentials not embedded in app code or env on workstations.	Secrets handling via AWS Secrets Manager.
85	CloudWatch logging	Agency IT; NC IT Admin	Faster support without broad call content in logs.	Operational logs in CloudWatch.
86	Audit event trail	Agency Admin, Agency IT, Supervisor, Auditor; NC Admin, NC IT Admin (platform)	Full picture of who did what in NexCort iQ for investigations.	Audit event capture for sensitive workflows (audit.view / audit.export).
87	Data retention policy controls	Agency Admin	Day-to-day use cannot defeat county retention rules.	Retention policy configuration surfaces (system.retention).
88	Role-based permissions	Agency Admin, Agency IT; NC IT Admin (cross-tenant)	Enforces in-app operations like export and config changes.	Role-based access permission enforcement (users.manage_roles / users.manage_permissions).
89	Tenant isolation	All (enforced by platform); Agency Admin, Auditor (verify)	Each agency's data stays isolated in multi-tenant cloud.	Agency-level isolation of data and access.
90	Production secret validation	Agency Admin, Agency IT	Objective go-live gate for secrets configuration.	Validation of production secrets before go-live.
91	Emergency account deactivation	NC IT Admin (cross-tenant)	Compromised accounts can be locked immediately across any tenant without waiting for agency admin action.	Emergency deactivation of a compromised user account (users.deactivate_emergency).
92	Time-boxed permission grants	NC Super Admin (issue/revoke); NC Admin (view active grants)	Expiry and reason required on every grant — no permanent unaudited escalation.	Temporary permission escalation with mandatory expiry and audit trail (grants.issue / grants.revoke / grants.view).

NEXCORT IQ

Intelligence at the Speed of Response

#	Feature	Primary Role(s)	Advantage	Description
93	Network Access Controls	Agency Admin, Agency IT	Limit console access to approved networks and time windows.	IP allowlists and time-window gates; blocked attempts audited.

Support Packages

#	Feature	Primary Role(s)	Advantage	Description
94	Standard support	Agency Admin	Known channel and documented expectations when something breaks.	Standard support package.
95	Priority support package	Agency Admin	Faster path when minutes matter, within contract windows.	Priority support and faster response.
96	Mission support package	Agency Admin	Senior engineer path during major regional events (contractual).	Mission support for higher criticality operations.
97	Dedicated support engineer	Agency Admin	Less re-explaining environment on every ticket.	Dedicated support engineer assignment.
98	Dedicated customer success manager	Agency Admin	Training, module readiness, and executive readouts after go-live.	Dedicated CSM engagement.
99	Dedicated solution architect	Agency Admin	Shared mental model for IT and vendor before cutover.	Solution architect for complex deployments.

NEXCORT IQ

Intelligence at the Speed of Response

Additional Product Modules

The following 36 modules exist in the codebase and API, maintained separately from the 99-feature catalog. Several are flag-gated or plan-gated. CAD write-back remains fail-closed by default and is never included in pilot base pricing. NexIQ Vision™, Call Assist, Vault, and CAD mesh are never free.

#	Module	Primary Role(s)	Advantage	Description
1	Silent Text	Dispatcher, Supervisor	SMS-based discreet two-way text when callers cannot speak safely.	Session-based silent texting with consent, audit, and high-risk marking.
2	Video Assist	Dispatcher, Supervisor	Live WebRTC video from caller device via SMS link and consent flow.	Real-time caller video into the workspace (workspace.live_video).
3	Citizen Camera Share (Ring / Nest / Wyze)	Supervisor, Agency Admin; Dispatcher (where enabled)	Time-limited homeowner/citizen camera share into the live incident with consent.	Ring OAuth live; Nest and Wyze citizen share paths alongside agency NexIQ Vision™ feeds.
4	NexIQ Vision™ (agency cameras)	Dispatcher, Supervisor; Campus/Venue/Transit Vision roles	Link ONVIF/RTSP facility cameras to active incidents with KVS streaming and AI scene assist.	NexIQ Vision™ camera tiers (Standard/Pro/Enterprise). Human-in-the-loop — not autonomous enforcement.
5	Venue camera routing	Supervisor, Agency Admin	Route venue/facility cameras during venue-class incidents.	Venue stream resolution tied to incident context (partial rollout).
6	Silent Monitor	Supervisor only	Supervisor observes live session context per policy.	workspace.silent_monitor — not available to Dispatcher.
7	Supervisor Assist	Supervisor only	Supervisor can assist/coach on live workspace without taking dispatch authority.	workspace.supervisor_assist — not available to Dispatcher.
8	Hospital Routing / Emergency Connect	Hospital Admin/Staff/Coordinator; PSAP Supervisor/Admin where enabled	Hospital pre-alert, capacity, MCI planning for EMS—hospital coordination.	Hospital divert status, ED/trauma routing, pre-alerts, MCI plans. Separate from PSAP dispatcher workspace.
9	Hospital Portal	Hospital Admin, Hospital Staff	Hospitals update capacity and acknowledge pre-alerts without PSAP console access.	Separate portal permissions (hospital_portal.*) — outside PSAP role matrix.
10	NC Lite	Agency Admin (key issuance); integrators (scoped access)	Lightweight API access for partner/automation scenarios.	API key issuance (agency.api_keys / integrations.api_keys) and scoped lite access.

NEXCORT IQ

Intelligence at the Speed of Response

#	Module	Primary Role(s)	Advantage	Description
1 1	Deception Shield	Agency Admin, Agency IT	Honeypot/decoy surfaces to detect probing (UI flag-gated).	Admin security tooling (NEXT_PUBLIC_ENABLE_DECEPTION_SHIELD_UI).
1 2	NC Admin / platform console	NC Admin, NC IT Admin, NC Super Admin	Multi-tenant onboarding, health, billing usage, cross-tenant support, Adobe Sign, developer portal.	Platform operations outside agency jurisdiction routes.
1 3	Agency Share (cross-jurisdiction)	Agency Admin, Supervisor (flag-gated)	Consent-based bidirectional incident sharing across neighboring agencies with dual audit trails.	Feature add-on (not a standalone product). Bidirectional authorization required.
1 4	SOP Protocol AI	Dispatcher, Supervisor	AI aligned to agency SOP/protocol libraries during intake.	NEXT_PUBLIC_ENABLE_SOP_PROTOCOL_AI.
1 5	Dispatcher Wellness	Dispatcher (self-service)	Wellness/support prompts separate from call-taking authority.	NEXT_PUBLIC_ENABLE_DISPATCHER_WELLNES S.
1 6	SEO Intelligence	Agency Admin (flag-gated)	Operational/SEO analytics for public-facing agency content.	NEXT_PUBLIC_ENABLE_SEO_INTELLIGENCE.
1 7	NexIQ Vision™ AI Transcripts & Observations	Dispatcher, Supervisor; Campus/Transit Vision roles (canRequestVisionAccess)	AI scene observations and vision transcripts on live camera sessions for authorized roles.	Live product surface: vision sessions, transcript start/stop, WebSocket rapid-vision.* events. Human review required.
1 8	Call Assist (non-emergency)	Call Assist Admin / Supervisor / Operator	AI-assisted non-emergency answering, intake, triage, warm transfer — never 911 dispatch.	Standalone product (Connect/Lex/Bedrock). Emergency mid-call handoff cannot be suppressed. Lands on /app/call-assist/* only.
1 9	iQ Reporting	Supervisor, Agency Admin (vertical supervisors/admins); never Dispatcher	Daily agency analytics by vertical (911, campus, venue, transit, hospital).	IQReportingPanel — supervisor/admin RBAC only. Aggregated daily metrics with nightly/hourly backfill.
2 0	Command Intelligence	Supervisor, Agency Admin, command staff	Communications operations intelligence — volume, Call Assist containment, translation, repeat locations.	Distinct from Incident Command Dashboard. Professional+ add-on.

NEXCORT IQ

Intelligence at the Speed of Response

#	Module	Primary Role(s)	Advantage	Description
2 1	Incident Context Cards	Dispatcher, Supervisor	Read-only location/caller context during live calls — prior calls, officer-safety flags, CAD/Vault labels.	Included in all plans. Does not include JMS or criminal-history data.
2 2	NexiQ Vault	Supervisor, Agency Admin, Analyst (read-only archive)	Historical CAD/call-record archive for migrations — search by address; enrich Context Cards.	Command+ add-on. No JMS/criminal-history. Read-only ingest of prior-system exports.
2 3	Response Continuity System (RCS)	Dispatcher, Supervisor	Life-safety call persistence: silent monitor queue, unit geofence arrival, audio sentinel, closure gate.	Professional+ module. Supervisor override paths are audited.
2 4	CAD-to-CAD Mesh / Multi-CAD Connector	Agency Admin, Agency IT; Supervisor (ops view)	Multi-CAD under one tenant and regional CAD-to-CAD awareness for mutual aid partners.	Never free. CAD write-back remains fail-closed and human-reviewed. Additional vendor connectors scoped separately.
2 5	Map Unit Overlays (AVL)	Dispatcher, Supervisor	Real-time apparatus position markers from CAD/AVL with status, distance, and ETA.	Command+ map overlay. Soft-fails when CAD unit feed is unavailable.
2 6	NexCort Translate (ops / field)	Campus, Venue, Transit, Hospital ops roles; complements PSAP live translation	Voice translation sessions at the point of public contact outside the classic 911 telecommunicator bridge.	Field/venue/campus/clinical translation sessions. Complements PSAP multilingual intake.
2 7	NG911 Assist	Agency Admin, Agency IT; Supervisor (metrics)	Diversion, EIDO/additional data, and NG911 metrics assist for i3-aware PSAPs.	Assists NG911 programs — not a telephony rip-and-replace. Scoped after ESInet/i3 discovery.
2 8	Emergency Alert Broadcast	Campus / Venue / Transit Admin & Supervisor	Occupant mass notification from vertical consoles (web dashboard sub-3s for open sessions).	SMS short-code is a separate pass-through with 8–12 week procurement; carrier blast is not sub-3s.
2 9	Clery Act Compliance Module	Campus Admin, Campus Supervisor	CSA registry, human classification, Daily Crime Log, public crime log, ASR statistics.	Campus Command+ module. Does not constitute legal advice.

NEXCORT IQ

Intelligence at the Speed of Response

#	Module	Primary Role(s)	Advantage	Description
30	Physical Security Ingest	Agency Admin, Agency IT; Campus/Venue security roles	Fire panel and access-control event ingest into ops consoles.	Outbound lock/unlock is a separate fail-closed flag requiring human approval.
31	QR / NFC Location + Pinpoint Live Share	Campus Admin/Supervisor, Venue Admin/Supervisor/Operator, Transit Admin/Supervisor	Location-specific reporting URLs, QR/NFC codes, and continuous live-share location pings.	PSAP roles intentionally excluded from QR management. Scan/tap counts tracked separately.
32	Venue Guest Services Console	VENUE_GUEST_SERVICE S (and venue ops)	Non-911 guest-services console for wayfinding and guest issues — explicitly not emergency dispatch.	Orange-branded. Every page reinforces: not a 911 emergency dispatch system.
33	Campus / Venue / Transit Vertical Consoles	CAMPUS_*, VENUE_*, TRANSIT_* roles	Product-vertical ops consoles isolated from PSAP jurisdiction dashboards.	Middleware enforces /app/campus venue transit/* routing. Product roles never collapse to dispatcher.
34	Mutual Aid & MCI Command	Supervisor, Agency Admin; Hospital Coordinator	Mutual aid activation and multi-casualty incident coordination across PSAP and hospital participants.	Complements war rooms and hospital capacity. Scoped per participating agencies.
35	Network Access Controls	Agency Admin, Agency IT	Restrict platform access to approved IP ranges and time-window gates per user group.	Blocked attempts logged to the audit trail. Professional+ add-on.
36	Escalation Bridge (live ops)	Dispatcher, Supervisor	Configurable live-incident escalation paths into supervisor/command workflows.	Live /api/escalations surface. Distinct from IT reliability escalation engine.

NexCort IQ — Confidential. For investor and partner use only. Role assignments reflect Role Access Matrix v2.0 and product-vertical roles. Catalog refreshed October 2026 to include shipped Vision, Call Assist, iQ Reporting, Command Intelligence, Vault, RCS, and vertical consoles. Features subject to change. Not all features available in all plan tiers or deployment configurations.
